

We are recruiting for HP's Application Delivery (Quality Center, QuickTest Professional, LoadRunner) with the desire and potential to become solution experts in Information Technology and Software Quality Assurance. We need **1 junior performance engineer and 1 function test engineer**.

**Responsibilities include:**

- ✚ Performing short and long term IT consulting projects
- ✚ IT Training on Software Quality Assurance
- ✚ Sales Demos
- ✚ Requirements Analyses
- ✚ Script development- VB Script or C Language
- ✚ Project Management
- ✚ Exciting travel around the country to different client sites
- ✚ HP Support

**Requirements:**

- ✚ The ideal candidate will be an entry level candidate and have a solid academic record with either a technical Certificate or an Associate's degree or a Bachelor's degree in a technical discipline (Computer Science, Computer Engineering, Information Systems or a related field) or equivalent work experience and an interest in applications of information systems.
- ✚ Knowledge of any programming language
- ✚ Development experience is a plus, but not a requirement

*Note: Consultants will travel up to 75% of the time around the country.  
Main office is in New York city and commuting to NYC is a requirement.*

We offer salary plus bonuses, benefits, full paid training and HP Certification with the training program.

As a Sky Junior Consultant, you will be challenged with exciting work in a wide range of industries and technologies and be part of a rapidly growing team of bright, dynamic and committed leaders within the world of IT. It's a great way to get into the industry and learn many different things in a quick amount of time.

Potential candidates, please email their resumes to: [msolomon@skyitgroup.com](mailto:msolomon@skyitgroup.com) .
